Telegraph Key Brings Rescue to Signal Man-Fighting Maniac.

Rewayton, Conn., Aug. 22.—Charles Lynch, signal man of the New-York, New-Haven and Connecticut Railroad here, was attacked this afternoon by rum crazed Richard Kennedy, who sprang on him in the tower. Had Lynch not been able to reach the telegraph keys Kennedy would have torn him limb from limb. Kennedy forced open the tower door, then swung it back again, bolted it tight, then turned the lock and threw away the key. It was all the work of a moment. Then he sprang on the signel man and, with the strength of a maniac, felled him to the floor.

'Im killing the blue devils!" he yelled. -Imgeur friend I can save you from the blue

devils! I know how! Listen to the ticking. Isn't That'll cure you." Lynch whispered confidingly. The telegraph keys answered with a rapid click. The manaic fell on his knees. Lynch jumped to his feet.

One of the attractions is a man named Dillon who rides a bicycle in a bowl shaped contrivance of wooden slats set above a llons' cage. In the cage were two beautiful African lions. The top of the cage is open.

The wheel slipped last night and dropped into the cage. Dillon caught the slats with one hand and drew himself up out of harm's way, and was assisted out over the rim of the bowl. His mishap and the minute or so it took to rescue him caused much excitement, and drew practically the whole crowd to the scene.

The trainer of the beasts, whose name is given as Carl, entered the cage to recover the bicycle, As he stepped into the cage the larger of the two animals sprang on him in an effort to get out of the cage. He had been badly frightened by the fall of the wheel. The other beast was lying whining in the far corner. The spring was unexpected and knocked Carl down, and as he fell his hand, which still rested on the door, swung t open, and the lion sprang through and onto the platform on which the cage rested. Men. women and children went racing down the streets, or broke frantically into nearby houses, screaming and hysterical. Many did not stop running until they dropped panting from exhaustion a mile or more from the park. One man, it is said, ran to East Orange, two miles or more away, and when he finally collapsed begged those about him to drive off the beasts. THE CLOUDS BREAKING.

A Better Outlook for the Peace Negotiations.

Portsmouth, N. H., Aug. 22.-The black clouds which hung so ominously over the future of the peace conference last night have suddenly broken asunder, and to-night a large rift affords some promise again. The old adage that "The darkest hour always comes before the dawn" may have been verified once more.

It would still be far too strong a statement to say that peace is in sight, but that there is ground for hope is unquestionably true. Japan has evinced an entirely unexpected spirit of conciliation, and it is learned this evening that informal exchanges which have occurred since the adjournment of last Friday have paved the way for an extended discussion of the disputed points, have, perhaps, even rendered it feasible for the plenipotentiaries to bargain.

What instructions the Russian envoys have received from St. Petersburg it is impossible to ascertain, but it may be stated on the highest authority that they, too, have suddenly receded from their "unalterable determination" to reject, even in principle, the demand that they defray the expenses of the war, and that in their estimation it is chiefly a question of Japan's moderation which stands in the way of peace.

That proposals or suggestions have passed be tween the Russian and Japanese envoys that now point to a solution of the deadlock over Articles 5 and 9, concerning the cession of Saghallen and Russia's payment of the cost of the war, is a fact. That Japan, while vigorously protesting her readiness to continue the war. has been really more anxious to end the conflict than has been thus far admitted is equally burning long after midnight. a fact, though it must be admitted, to the credit from New-York to ship on a cattle steamer, de- of Japanese diplomacy, that for a considerable termined to make a tour of the world.
